

Mrs V[®]
made to heal _____

A major breakthrough in stem cell activation technology.

The first product ever designed to activate your body's own stem cells. A true breakthrough in regenerative science that helps restore our bodies to a healthier and more youthful state in a way that no other product can.

Using LifeWave's patented form of phototherapy, LifeWave X39 patch elevates the peptide GHK-Cu which is known to decline with age and is now declining even more rapidly as we struggle with the inflammation of chronic illness and disease from our toxic and pathogenic world.

When elevated, this peptide activates the body's stem cells, providing incredible benefits. Stem cells are the building blocks for all the cells and structures of the human body, serving as an internal repair system everywhere.

Backed by multiple clinical studies and 20 years of development, the LifeWave X39 patch has been demonstrated to provide the following health benefits.

Rapid pain relief | Reduced inflammation | Rapid wound healing | Energy and vitality
Mental clarity | Enhanced sports performance | Faster recovery from exercise
Improved skin appearance | And relief from other health issues

The Sun Story

When we are in the sun, the light from the sun signals the body to increase the production of Vitamin D, melanin, melatonin and other happy chemicals in our body.

LifeWave patches don't not need the sun to induce a biochemical change. We are all suns. We emit light and heat.

The organic chiral isomers of each LifeWave patch reflect our body's own infrared light back into the skin as a new wavelength of the light in a process called photobiomodulation.

The new 'wavelength of light' then signals the body to increase the production of nutrient molecules that are unique to each LifeWave patch. The biggest breakthrough came in 2018 when LifeWave's phototherapy technology X39 patch was created to increase the copper peptide GHK-Cu that has been proven to increase stem cell activity to promote healing, restoration and rejuvenation.

All in a completely safe and non-invasive way as nothing enters the body.

Instructions

Place one LifeWave X39 patch anywhere on the body. Apply the patch to clean, dry skin.

Patches may be worn for up to 12 hours before discarding. Keep well hydrated while using this product.

'I'm pretty damn happy, feeling better than ever. Pain is no longer and ongoing issue, hair is thicker and I'm really noticing the improvement in my skin. I can only imagine what's going on inside!'

The approach is simple – The healing profound – The result is jaw dropping

Many experience rapid and noticeable health benefits using X39, often within the first month. This product is very individualised to YOUR stem cells. Some notice better sleep the first night, some notice a reduction in pain within the first 24 hours. Within the first month, many notice hair growth, a reduction in age spots, mental clarity, and tightening of the skin – just to name a few.

Your body's innate intelligence determines where the repair begins, often where the body is the weakest.

You can get started from as little as approx. AUD\$165 and all first orders come with a 30 or 90 Day Money Back Guarantee.

There really is nothing to lose and everything to gain.

The First Few Days

4,000 GENES BEGIN TO RESET

Within 24 hours the stem cell activation patch begins to reset 3,000-4,000 genes to a younger and healthier state. People using the stem cell patches will experience an immediate effect through elevation of antioxidants, a decrease in inflammation and an increase in energy and joy.

Within 1-3 Months

PHYSICAL, MENTAL AND EMOTIONAL CHANGES OCCUR

A recent study has shown, after six weeks, X39 helped the brain become more balanced as shown on QEEG brain mapping. These types of changes help calm an overactive brain leading to a decrease in multiple symptoms such as memory, depression, anxiety, sleep and more. 2019 PSY-TEK Labs

Activating your stem cells leads to an increase in collagen in the skin which decreases wrinkles and increases hair growth. Even if you don't feel the effects, rest assured, the new stem cells may be regenerating an internal organ or tissue before repairing something you feel.

Within 3-6 Months

ACTIVE STEM CELL REPAIR

The pluripotent stem cells turn into any cell your body needs for repair. Your stem cells are now actively creating deep healing in your body and repairing damage.

Within 6-12 Months

REVERSE AGING

"In a recent study, 14 out of 15 people lowered their vascular age by an average of 8 years after just 6 months of using X39™. It's not anti-aging, it's age reversing."

Pricing on the LifeWave website is in \$USD excluding GST and postage.

Patches come in packs of 30 and are generally worn for 12 hours per day and discarded.
ie. 7am-7pm.

It is recommended that you wear the X39 patches for at least one month for every decade you are old. ie. 6 months if you are 60 years old. This will ensure your stem cells start to actively create deep healing.

Step 1.

Choose how you'd like to start.

X39

By far the easiest and most economical way to get started is with the all-rounder X39 patch. Get your stem cells working for you!

X39 and Aeon

If you have a lot of inflammation and/or you are particularly sensitive, then you may want to add in the Aeon patch to start. It will go to work on the inflammation and calming your central nervous system so the X39 patch can get straight into repair and regeneration. This can be recommended for most health issues when starting out, but is not necessary. Lots of people around the world just use the X39 patch daily with amazing results.

X39 and Aeon with Glutathione or Icewaves or SP6

If you are struggling with an auto-immune diagnosis and/or toxicity and/or gut issues and/or pain and/or hormone imbalance then you may want to consider trying some targeted protocols. Most protocols at a minimum include X39 and Aeon and Glutathione. Adding Glutathione gives a major boost to immunity and helps with detox of root causes. Of course, if this seems like too much then just patching with the X39 is a great place to start!
